## REPORT OF SCHOOL BOARD.

---

In giving our report of the work for the school year, there is little that we can say which has not been said to you many times before.

We were deprived in the early part of our work of the able help of our chairman, Mr. C. S. Taylor, by his illness, which later caused him to resign.

Our teachers have ranked high in character and education, young men and women who have spent time and money for an education, they have entered earnestly into the work of teaching, the pupils have gained much by their precept and example. We are more than satisfied with the work of both teachers and pupils.

At our school meeting the voters gave us a generous appropriation, we thought enough to give us twenty-eight weeks this year. About this time our attention was called to the enactment of a law which says that, "Each district in order to draw any state aid in December, 1911, must maintain at least thirty weeks of school the present school year, that is to say, between July 15, 1910, and July 15, 1911."

The total state aid for this year is \$426.17. In order that you may be able to draw a like sum for next year, we have tried to give the children two or three weeks more schooling this winter, but for various reasons the effort has not met with quite the success which we anticipated. In order to carry out this plan we will have to make some of the schools longer than others this spring. As you notice that there is an amount of money on hand, you will also observe by scanning the statistical table that we shall need thirteen weeks more divided among our different schools, than in previous years to complete the thirty weeks for the year ending July 15, 1911. If we ask you to send your children a little earlier in the season and also a little later, we beg your hearty co-operation in completing this year's work, then we will leave it with you to decide whether the town district will drop all state aid and go back to twenty weeks a year.

There is one more subject before I take up the estimate of expenses for the coming year: Our schools are small in the number belonging, composed of comparatively young children; we are paying good salaries to our teachers, but they will soon leave us for larger schools: it is depressing to teach two or four pupils, when the teacher is fully able to cope with twenty-five ungraded children. Will you not see that each child that you have charge of is in his place in the school-room every day that school is in session.

Estimate.

High school tuition,	\$375 00
School books and supplies,	60 00
Flags and appurtenances,	5 00

In closing we wish to thank the citizens of Danbury for their able support during the past year, and especially the board of selectmen for courtesy shown and assistance rendered us, as we assumed the new duties imposed upon us by the legislature.

Respectfully submitted,

NELLIE F. EDSON,  
MARY W. FORD,

*Members of the School Board of Danbury.*
